General Information

Constitution

MEDIOBANCA SICAV (the "Fund"), previously named ESPERIA FUNDS SICAV until July 22, 2020, was incorporated for an unlimited period of time on August 14, 1998 and is governed by the law of August 10, 1915 on commercial companies, as amended, and by Part I of the Luxembourg law of December 17, 2010 on Undertakings for Collective Investment, as amended.

The registered office of the Fund is established at 60, avenue J.F. Kennedy, L-1855 Luxembourg, Grand-Duchy of Luxembourg. The Fund is registered at the "Registre de Commerce et des Sociétés" with the District Court of Luxembourg under the number B 65.834.

The articles of incorporation were published in the "Mémorial, Recueil des Sociétés et Associations" (the "Mémorial") of September 11, 1998 and have been filed with the Chancery of the District Court of Luxembourg together with the "Notice légale" on the issue and sale of shares. Any interested person may inspect these documents at the Chancery of the District Court of Luxembourg; copies are available on request at the registered office of the Fund.

The minimum capital of the Fund, as provided by the law, is EUR 1,250,000. The capital of the Fund is represented by fully paid-up shares of no par value.

Shareholders' General Meeting

1. Periodic reports

The Fund publishes annually a detailed annual report on its activities and on the management of its assets; such report includes, inter alia, the combined accounts relating to all the sub-funds, a detailed description of the assets of each sub-fund and a report from the Auditor.

The Fund further publishes semi-annual unaudited reports, including, inter alia, a description of the investments of each sub-fund and the number of shares issued and redeemed since the last publication.

The above mentioned documents are available within four months for the annual reports and two months for the semi-annual reports of the date thereof and copies may be obtained free of charge by any person at the registered office of the Fund, as well as the Fund's prospectus.

The accounting year of the Fund starts on July 1 and terminates on June 30.

The combined accounts of the Fund are maintained in EUR being the currency of the share capital. The financial statements relating to the various separate sub-funds are expressed in the reference currency of each sub-fund.

2. Shareholders' information

a) Net asset value

The net asset value per share of each sub-fund is available at the registered office of the Fund and is published in "Il sole 24 Ore".

b) Subscription and redemption prices

The subscription and redemption prices of the shares of each sub-fund are rendered public each day at the counters of the Depositary Bank and in banks offering financial services.

c) Notification to the shareholders

The other information addressed to the shareholders is published at the "Registre de Commerce et des Sociétés" in Luxembourg if this publication is prescribed by the statutes or the prospectus. Moreover, it may be published in any newspaper published in the Grand Duchy of Luxembourg and other newspaper(s) that the Board of Directors may determine.

d) The list of changes in the portfolio of each sub-fund is available free of charge upon request at the registered office of the Fund.

MEDIOBANCA SICAV

General Information (continued)

Risk Measurement and Global Exposure

The Management Company uses a risk management process that enables it to monitor and measure at any time the risk of the portfolio positions and their contribution of the overall risk profile of the sub-funds. In accordance with the law of December 17, 2010, as amended, and the applicable regulatory requirements of the Commission de Surveillance du Secteur Financier “CSSF”, the Management Company reports to the CSSF on a regular basis on the risk management process. The Management Company ensures, based on appropriate and reasonable methods, that the overall risk associated with financial derivative instruments does not exceed the net asset value of the portfolio.

This means that the global exposure relating to the use of financial derivative instruments may not exceed 100% of the net asset value of the sub-fund and, therefore, the overall risk exposure of the sub-fund may not exceed 200% of its net asset value on a permanent basis.

MEDIOBANCA SICAV Duemme Systematic Diversification uses the absolute VaR Approach to calculate the global exposure. The sub-fund regularly monitors its leverage and the average level of leverage is expected to be approximately 200% with a maximum expected level of leverage of 500%. The leverage figure is calculated as the sum of the notionals of the derivatives used as required by the Regulations.

For the period ended December 31, 2020, the VaR methodology, the information on the utilization of the VaR limit (the lowest, the highest and the average VaR), the model and the parameters used for its calculation as well as the average level of leverage are detailed as follows:

Sub-Fund Name	MEDIOBANCA SICAV Mediobanca Systematic Diversification
Global Exposure - Methodology	Absolute VaR
Information on the VaR:	
Regulatory Limit	20%
VaR Model used	Historical Simulation
Lowest VaR	6.08%
Highest VaR	10.48%
Average VaR	7.91%
Historical Data Series Size	250
Price Return Frequency	Daily
Decay Factor	1
Time Horizon	1 month
Confidence Level	99%
Leverage	
Expected Maximum level of leverage	
Gross approach	500%
Net approach	n/a
Average observed level of leverage	
Gross approach	136.12%
Net approach	n/a

All the other sub-funds use the commitment approach in order to monitor and measure the global exposure, in accordance with the methodology described in the ESMA guidelines 10-788.

Remuneration

MEDIOBANCA SICAV adopted the Remuneration Policy of Mediobanca Management Company S.A. (the “Management Company”).

The Remuneration Policy is aimed at ensuring that any relevant conflicts of interest can be managed appropriately at all times and sets out practices for those categories of staff, including senior management, risk takers, control functions, and any employees receiving total remuneration that takes them into the same remuneration bracket as senior management and risk takers, whose professional activities have a material impact on the risk profile of the sub-funds, that are consistent with and promote sound and effective risk management and do not encourage risk-taking which is inconsistent with the risk profiles, rules or instruments of incorporation of those sub-funds.

General Information (continued)

Remuneration (continued)

This Remuneration Policy is in line with the business strategy, objectives, values and interests of the Management Company, the Funds under management and the investors of those Funds and includes measures to avoid conflicts of interest. In addition, the remuneration policy adopted applies the principles laid out under the UCITS Directive.

Identified staff

The UCITS Directive requires the Management Company to identify the categories of staff whose professional activities have a material impact on the risk profiles of the sub-funds.

The identified staff for the purpose of this Remuneration Policy are Mr. Fabio Gabriele and Mr. Fabio Ventola as Conducting Officers of Mediobanca Management Company S.A., Mr. Alessandro Ragni as Board Member of Mediobanca Management Company S.A., Mr. Giovanni Mancuso and Mr. Massimo Amato as Independent Members of the Board of Mediobanca Management Company S.A., and Mr. Giorgio Paleari as Head of Internal Audit of the Parent Company (Mediobanca S.p.A.).

Structure of remuneration

1. Fixed remuneration
2. Variable remuneration

The Management Company dedicates itself to collective asset management by managing a fund portfolio. Therefore, the variable component is predominantly established on a quantitative basis according to the actual profitability of the Management Company, taking into account any risk alignments.

The amount of individual bonuses may vary at the discretion of the management, according to assessments made regarding compliance with the business model, the attainment of targets and the absence of any critical situations or other prejudicial factors (i.e. in relation to Risks, Compliance and Anti-Money Laundering and Human Resources).

To measure performance, this discretion will be accompanied by a performance measurement system introduced at the start of each financial period in line with the allocated budget. The system will be quantitative and qualitative in nature and will consider corrective elements linked to the areas of compliance referred to above. The guidelines for the incentive scheme are determined in accordance with the policies of Mediobanca S.p.A. and the Mediobanca Group.

During its last accounting period ended December 31, 2020, the Management Company remunerated staff members as follows:

Total fixed remuneration*:	EUR 385,788.15
Total variable remuneration**:	EUR 117,801.70
Total remuneration:	EUR 503,589.85

Number of beneficiaries 6

Aggregate amount for senior management, fund managers, control functions and other risk takers whose professional activities have a material impact on the risk profiles of the Management Company and identified in the remuneration policy as "identified staff":

Total fixed remuneration*:	EUR 190,407.48
Total variable remuneration**:	EUR 52,500.00
Total remuneration of identified staff:	EUR 242,907.48

Aggregated amount of remuneration for other members of staff EUR 260,682.37.

* Benefit in Kind are excluded

** This amount is the variable remuneration paid to the different staff members for the period ended December 31, 2020, in compliance with the remuneration policy.

Notes to the Financial Statements as at December 31, 2020 (continued)

Note 3. Significant accounting policies

The financial statements are presented in accordance with Luxembourg regulations relating to Undertakings for Collective Investment in transferable securities.

3.1 Combined financial statements

The various items in the combined financial statements correspond to the sum of the corresponding items in the financial statements of each sub-fund, converted if necessary into EUR at the exchange rates prevailing on the closing date.

3.2 Foreign exchange translation

The accounts of each sub-fund are denominated in the currency in which its net asset value is calculated.

The financial statements have been drawn up in the accounting currency of each sub-fund. Assets and liabilities expressed in currencies other than the accounting currency of the sub-fund are converted into that currency at the exchange rates prevailing on the closing date.

Income and expenses expressed in currencies other than the accounting currency of the sub-fund are converted into that currency at the exchange rates prevailing on the transaction date.

3.3 Presentation of the financial statements

The financial statements are presented on the basis of the latest net asset value calculated during the financial year. In accordance with the prospectus, the net asset values were calculated using the stock market prices and the latest exchange rates known at the time of calculation.

3.4 Valuation of investment portfolio

The Net Asset Value per each share class is determined on the day specified for each sub-fund (the "Valuation Day") on the basis of the value of the underlying investments of the relevant sub-fund, determined as follows:

(a) The value of each security and/or money market instrument which is quoted or dealt in on any stock exchange is based on its last closing price on the stock exchange which is normally the principal market for such security and/or money market instrument known at the end of the day preceding the relevant Valuation Day;

(b) The value of each security and/or money market instrument dealt in on any other Regulated Market is based on its last known closing price which is normally available at the end of the day preceding the relevant Valuation Day;

(c) Shares or units in open-ended investment funds shall be valued at their last available calculated net asset value. That may be calculated depending on underlying funds two days before the relevant Valuation Day, and then known at the end of the day preceding the relevant Valuation Day;

(d) In the event that any assets are not listed or dealt in on any stock exchange or on any other Regulated Market, or if, with respect to assets listed or dealt in on any stock exchange, or other Regulated Market as aforesaid, the price as determined pursuant to sub-paragraph (a) to (c) is not representative of the fair market value of the relevant assets, the value of such assets is based on the reasonably foreseeable sales price determined prudently and in good faith;

(e) All other securities and other assets are valued at fair market value as determined in good faith pursuant to procedures established by the Board of Directors.

In accordance with the prospectus, the NAVs were calculated using the latest market values and exchange rates known at the time of calculation.

3.5 Valuation of financial future contracts

The valuation of a financial future contract which is quoted or dealt in on any stock exchange is based on its last closing price on the stock exchange which is normally the principal market for such financial derivative instrument known at the end of the day preceding the relevant Valuation Day. The value of each future contract dealt in on any other Regulated Market is based on its last known closing price which is normally available at the end of the day preceding the relevant Valuation Day. Resulting realised and net change in unrealised gains and losses are included in the statement of operations and changes in net assets. Unrealised gains and losses are included in the statement of net assets. The results on closed positions for which final payment has not yet been made are considered as unrealised.

Notes to the Financial Statements as at December 31, 2020 (continued)

Note 3. Significant accounting policies (continued)

3.6 Valuation of forward foreign exchange contracts

The forward foreign exchange contracts opened at year-end are valued at the forward exchange rate corresponding to the termination date of the contract. Realised gains and losses and net change in unrealised gains and losses are included in the statement of operations and changes in net assets. Unrealised gains and losses are included in the statement of net assets.

3.7 Valuation of options

The SICAV writes options on securities, futures, swaps and currencies. These options are settled in cash and expose the SICAV to unlimited risk of loss. The SICAV, however, is not subject to credit risk on written options as the counterparty has already performed its obligation by paying the premium at the inception of the contract.

The market values of options purchased are recorded as investments (under the item "Purchased options at market value" in the statement of net assets) and the market values of options written or sold are recorded as liabilities (under the item "Written options at market value" in the statement of net assets). When the exercise of an option results in a cash settlement, the difference between the premium and the settlement proceeds is accounted for as a realised gain or loss (under the item "Net realised gain / (loss) on options, swap contracts and contracts for difference" in the statement of operations and changes in net assets). When securities are acquired or delivered upon exercise of an option, the acquisition cost or sale proceeds are adjusted by the amount of the premium. When an option is closed, the difference between the premium and the cost to close the position is accounted for as a realised gain or loss. When an option expires, the premium is accounted for as a realised gain or loss.

The options are valued at the last available market price. The value of each option which is quoted or dealt in on any stock exchange is based on its last closing price on the stock exchange which is normally the principal market for such financial derivative instrument known at the end of the day preceding the relevant Valuation Day. The value of each option dealt in on any other Regulated Market is based on its last known closing price which is normally available at the end of the day preceding the relevant Valuation Day. Resulting realised and net change in unrealised gains or losses are included in the statement of operations and changes in net assets. Unrealised gains and losses are included in the statement of net assets. The results on closed positions for which final payment has not yet been made are considered as unrealised.

3.8 Valuation of swap contracts

Swaps are valued at their fair value based on the underlying asset.

The swap contracts are valued in a reliable and verifiable manner on a daily basis and verified by a competent professional appointed by the Board of Directors.

The SICAV may enter into swap contracts in which the SICAV and the counterparty agree to exchange payments relating to the returns generated by a security, instrument, basket of securities or index. The payments made by the SICAV to the counterparty and vice versa are calculated by reference to a specific security, basket of securities, index, or instrument and to an agreed upon notional amount. Any such underlying security or instrument must be a transferable security and any such index must be an index of a regulated market.

A credit default swap is a credit derivative transaction in which two parties enter into an agreement, whereby one party pays the other a fixed periodic coupon for the specified life of the agreement. The other party makes no payment unless a credit event relating to a predetermined reference asset occurs. If such an event occurs, the party will then make a payment to the first party, and the swap will terminate.

The unrealised gain or loss on swap contracts is recorded under the item "Net unrealised gain / (loss) on swap contracts and contracts for difference" in the statement of net assets.

The changes in such amounts are included in the statement of operations and changes in net assets under the item "Net change in unrealised gain / (loss) on options, swap contracts and contracts for difference".

When a contract is closed, the realised gain or loss is recorded under the item "Net realised gain / (loss) on options, swap contracts and contracts for difference" in the statement of operations and changes in net assets. The realised gain or loss on swap contracts includes also the premium paid or received on swaps contracts.

MEDIOBANCA SICAV

Notes to the Financial Statements as at December 31, 2020 (continued)

Note 3. Significant accounting policies (continued)

3.9 Valuation of contracts for difference

Contracts for difference ("CFDs") are over-the-counter financial contracts used to gain exposure to fluctuations (positive or negative depending on the direction of the transaction) in financial instruments, baskets of financial instruments or indices without having to own or borrow the underlying financial instruments.

CFDs are valued by reference to the market value of the underlying assets, taking into account the costs inherent to the transaction. Realised profits or losses and the resulting variation in unrealised profits or losses are included in the statement of operations and changes in net assets.

3.10 Income

Bank interests are accounted for on a day-to-day basis. Dividends are taken into income on the date upon which the relevant securities are first listed as "ex-dividends". The interests on bonds and money market instruments are accrued on a daily basis. The interests on securities lending are recorded on cash settlement basis.

Note 4. Investment management fees and performance fees

The investment management fees are payable to the Management Company, quarterly for each sub-fund and are calculated on the basis of the average net asset value of each share class.

As at December 31, 2020, the annual management fees rates per share class are as follows :

SUB-FUND NAME	I-class	C-class	Z-class
MEDIOBANCA SICAV Mediobanca Euro Equities	0.85%	1.50%	N/A
MEDIOBANCA SICAV Mediobanca Corporate Bond Euro	0.60%	1.00%	N/A

MEDIOBANCA SICAV Alkimis Absolute	1.20%	1.50%	N/A
MEDIOBANCA SICAV Alkimis Special Values	1.25%	1.70%	N/A

The Management Company may pay part or all of the investment management fees received to the Delegated Investment Manager.

The maximum level of total management fee that may be charged to both the sub-fund and to the UCITS and / or UCI in which the sub-fund intends to invest per annum calculated on the Net Asset Value, applicable for the following sub-funds, is:

SUB-FUND NAME	Maximum level of total management fee
MEDIOBANCA SICAV Russell Investments Global Equity Fund	3.50%
MEDIOBANCA SICAV C-Quadrat Asian Bond Opportunities	3.50%
MEDIOBANCA SICAV C-Quadrat Efficient	3.50%

MEDIOBANCA SICAV Mediobanca Bond Euro (until November 20, 2020) :

For all classes of shares, the Management Company is entitled to receive a quarterly performance fee equal to 10% of the difference between the quarterly performance of the sub-fund and that of the Merrill Lynch Euro Government Bills index plus 12.5 basis points (50 basis points on an annual basis) (the "Benchmark"), both calculated at the end of each calendar quarter. The performance fee is only applicable at the end of each quarter if the sub-fund performs positively and higher than the Benchmark at the end of each calendar quarter and provided that the Net Asset Value at the last Valuation Day of the relevant calendar quarter is higher than the last Net Asset Value of the preceding calendar year and higher than each last Net Asset Value of each preceding calendar quarter during the current accounting year (the "High Water Mark"). Any performance fee applicable will be calculated at the end of each calendar quarter on the average assets of the sub-fund during the quarter and charged to the sub-fund at the end of the quarter. For newly launched shares, the reference period for the calculation shall start at the launch of such shares and end at the end of the current calendar quarter and the High Water Mark shall be the first Net Asset Value after the launch date that is higher than the Benchmark.

Notes to the Financial Statements as at December 31, 2020 (continued)

Note 4. Investment management fees and performance fees (continued)

The first High Water Mark will give right to the payment of a performance fee as above defined. If shares were redeemed or converted into other shares of any class of the same sub-fund or any class of another existing sub-fund during the reference calendar quarter, and for those shares, a performance fee is accrued, it will be crystallized at the date of redemption or conversion and it will be considered as payable to the Management Company.

MEDIOBANCA SICAV Mediobanca Euro Equities :

For all classes of shares, the Management Company is entitled to receive a quarterly performance fee equal to 15% of the difference between the quarterly performance of the sub-fund and that of the index, 95% comprising the Euro Stoxx Index and the remaining 5% the Merrill Lynch Euro Government Bills index (the "Benchmark"), both calculated at the end of each calendar quarter. The performance fee is only applicable at the end of each quarter if the sub-fund performs positively and higher than the Benchmark at the end of each calendar quarter and provided that the Net Asset Value at the last Valuation Day of the relevant calendar quarter is higher than the last Net Asset Value of the preceding calendar year and higher than each last Net Asset Value of each preceding calendar quarter during the current accounting year (the "High Water Mark"). Any performance fee applicable will be calculated at the end of each calendar quarter on the average assets of the sub-fund during the quarter and charged to the sub-fund at the end of the quarter. For newly launched shares, the reference period for the calculation shall start at the launch of such shares and end at the end of the current calendar quarter and the High Water Mark shall be the first Net Asset Value after the launch date that is higher than the Benchmark. The first High Water Mark will give right to the payment of a performance fee as above defined. If shares were redeemed or converted into other shares of any class of the same sub-fund or any class of another existing sub-fund during the reference calendar quarter, and for those shares, a performance fee is accrued, it will be crystallized at the date of redemption or conversion and it will be considered as payable to the Management Company.

MEDIOBANCA SICAV Mediobanca Corporate Bond Euro :

For all classes of shares, the Management Company is entitled to receive a quarterly performance fee equal to 10% of the difference between the quarterly performance of the sub-fund and that of the Merrill Lynch Euro Government Bills index plus 25 basis points (100 basis points on an annual basis) (the "Benchmark"), both calculated at the end of each calendar quarter. The performance fee is only applicable at the end of each quarter if the sub-fund performs positively and higher than the Benchmark at the end of each calendar quarter and provided that the Net Asset Value at the last Valuation Day of the relevant calendar quarter is higher than the last Net Asset Value of the preceding calendar year and higher than each last Net Asset Value of each preceding calendar quarter during the current accounting year (the "High Water Mark"). Any performance fee applicable will be calculated at the end of each calendar quarter on the average assets of the sub-fund during the quarter and charged to the sub-fund at the end of the quarter. For newly launched shares, the reference period for the calculation shall start at the launch of such shares and end at the end of the current calendar quarter and the High Water Mark shall be the first Net Asset Value after the launch date that is higher than the Benchmark. The first High Water Mark will give right to the payment of a performance fee as above defined. If shares were redeemed or converted into other shares of any class of the same sub-fund or any class of another existing sub-fund during the reference calendar quarter, and for those shares, a performance fee is accrued, it will be crystallized at the date of redemption or conversion and it will be considered as payable to the Management Company.

MEDIOBANCA SICAV Mediobanca Private Equity Strategies :

For all classes of shares, the Management Company is entitled to receive a quarterly performance fee equal to 15% of the difference between the quarterly performance of the sub-fund and that of the index, 95% comprising S&P Listed Private Equity EUR index - Ticker: SPLPEQTE Index and the remaining 5% Merrill Lynch Euro Government Bills index - Ticker: EGB0 Index (the "Benchmark"), both calculated at the end of each calendar quarter. The performance fee is only applicable at the end of each quarter if the sub-fund performs positively and higher than the Benchmark at the end of each calendar quarter and provided that the Net Asset Value at the last Valuation Day of the relevant calendar quarter is higher than the last Net Asset Value of the preceding calendar year and higher than each last Net Asset Value of each preceding calendar quarter during the current accounting year (the "High Water Mark"). Any performance fee applicable will be calculated at the end of each calendar quarter on the average assets of the sub-fund during the quarter and charged to the sub-fund at the end of the quarter. Note 11. Transaction costs

The Company incurred transaction costs which have been defined as the brokerage fees, certain taxes and certain custodian fees relating to the purchase and sale of transferable securities, money market instruments or other eligible assets. Transaction costs are included in the statement of operations and changes in net assets.

There are no brokerage fees charged separately for transaction on fixed income instruments. The transaction costs are included in the transaction price, which is known as "marked up".

Note 12. Cash at bank and bank overdraft

Notes to the Financial Statements as at December 31, 2020 (continued)

Note 13. Other expenses

For the period ended December 31, 2020, Other expenses balance of the Statement of Operations and Changes in Net Assets is mainly composed of distribution fees, risk monitoring fees and transfer agent fees.

Note 14. Fair valued securities

On March 30, 2020, the Board of Directors accepted the proposal of the Management Company to depreciate OPUS CHARTERED 0% 20-27/09/2025 (DE000A276EB6) by around 30%, from USD 89.75% to USD 63%. The decision was taken after having observed that the price of the security was not updated since its issuance. The illiquid nature of the instrument, alongside with the unstable situation faced by the emerging markets, suggested to proceed with a price revision. The fiscal sustainability theme that will be tackled in Brazil at local and central level will likely lead to postpone the repayments of the underlying basket of the product.

Note 15. Subsequent events

There were no material events which occurred after the end of the financial period, which would have a bearing on the understanding of the financial statements.

Additional information regarding the Transparency of Securities Financing Transactions

The Fund is subject to the Regulation (EU) 2015/2365 on Transparency of Securities Financing Transactions and of Reuse and Amending Regulation (EU) No 648/2012 of the European Parliament ("SFTR").
